

# Scopus

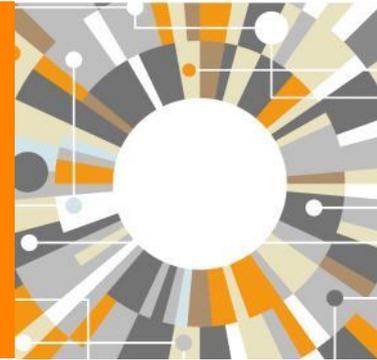

## FUNCIONALIDADES BÁSICAS EN SCOPUS

**Abril 2017**

# Qué aprenderemos hoy

- ¿Qué es Scopus y quién lo usa?
- ¿Qué tipos de contenido incluye Scopus?
- ¿En qué tareas puede ayudarle Scopus?
- Novedades de 2016
- Funcionalidades Básicas de Scopus
- ¿Dónde puede encontrar más sobre Scopus?

# ¿Qué es Scopus y quién lo usa?

# ¿Qué es Scopus?

Scopus es la mayor base de datos de resúmenes y de literatura revisada por pares y cuenta con herramientas inteligentes que permiten **controlar, analizar y visualizar** investigación académica.

The screenshot displays the Scopus website's document search interface. At the top, the Scopus logo is on the left, and navigation links for Search, Sources, Alerts, Lists, and Help are in the center. On the right, there are buttons for Register and Login, and a hamburger menu icon. Below the navigation bar is a dark blue header with the text 'Document search' and a 'Compare sources' link. A notification box at the top of the main content area contains two messages: 'Scopus has a new look! Click here for more details' and 'Scopus is expanding its basket of metrics by adding CiteScore metrics — a free family of eight indicators that offer a broader and more transparent perspective of sources.' Below the notification, there are tabs for 'Documents', 'Authors', 'Affiliations', and 'Advanced', with 'Documents' being the active tab. A 'Search tips' link is also present. The search input field contains the text 'Article title, Abstract, Keywords' and has a dropdown arrow and a plus sign icon. Below the search field, there is a placeholder text: 'E.g., "heart attack" AND stress'. A '> Limit' link is located below the search field. At the bottom right, there are 'Reset form' and 'Search Q' buttons.

La relación entre artículos, perfiles de autor y de afiliación a través de los datos de las citas es la base de Scopus.com

# Contenido de Scopus

# Scopus cubre diferentes tipos de fuentes por una razón

## JOURNALS

- Oportuno
- Revisado por pares (investigación formal)

Todos los campos, pero campos típicos con alta proporción de publicación de revistas: química, ciencias de la salud, biológicas, etc.

## CONFERENCES

- Investigaciones preliminares (pueden ser un poco menos formales)
- Ideas actuales

Principalmente campos relacionados con Ingeniería e Informática

## BOOKS

- Análisis en profundidad de un tema específico

Fundamentalmente de utilidad en Ciencias Sociales y Artes y Humanidades

Diferentes tipos de fuentes para garantizar que la cobertura, capacidad de descubrimiento, perfiles y medición del impacto de la investigación en todos campos se añaden a Scopus.

# Scopus incluye el contenido de más de 5000 editores y 105 países diferentes

**66M** archivos de **22K** series, **97K** conferences and **138K** libros  
40M después de 1995 – 24M antes del 1996

- Actualizado a diario
- “Artículos en prensa” de > 5.175 títulos
- 40 idiomas diferentes
- 3.715 Golden Open Access journals indexados

## JOURNALS

Ciencias Físicas  
**7,450**

Ciencias de la Salud  
**6,822**

Ciencias Sociales  
**8,223**

Ciencias de la Vida  
**4,532**

**22,748** peer-reviewed journals  
**322** trade journals

Metadatos completos, resúmenes y referencias citadas

## CONFERENCES

**97K** conference events  
**7.7M** conference papers

Principalmente Ingeniería y Ciencias Informáticas

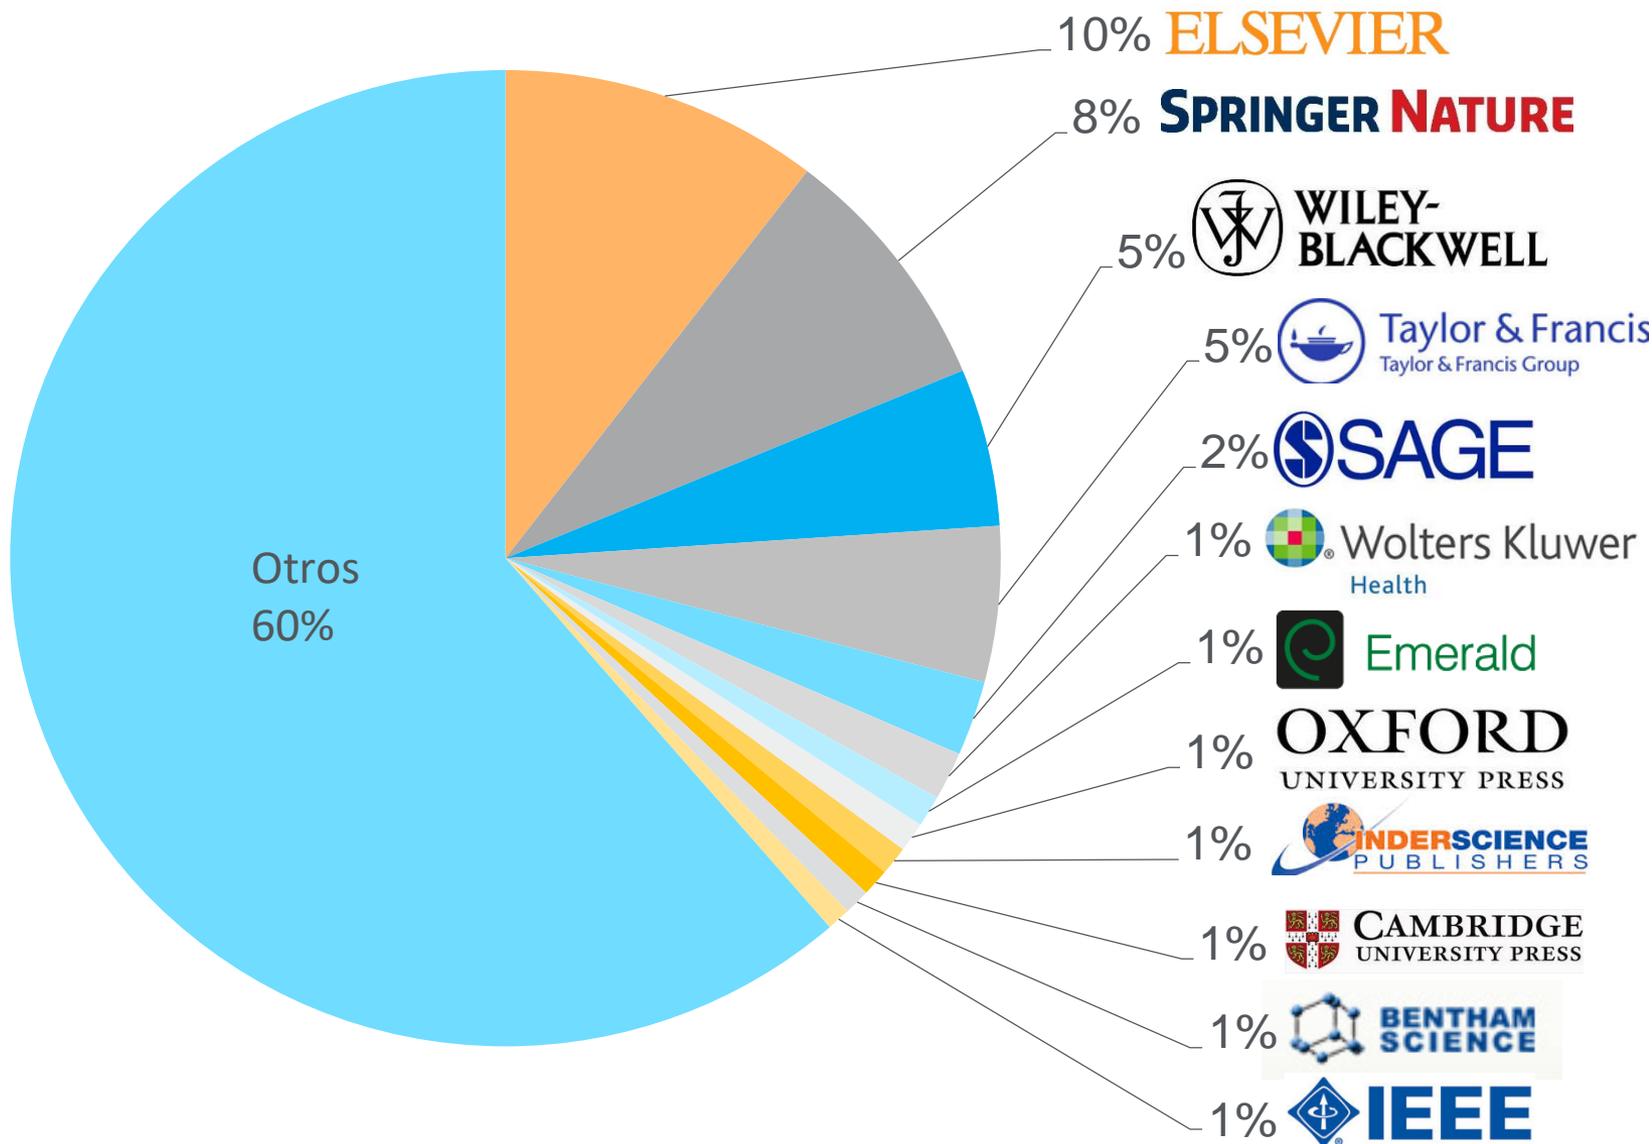

## BOOKS

**558** book series  
**34K** Volumes / **1.3M** items

**138,000** libros independientes  
**1M** items

Centrado en Ciencias Sociales, Artes y Humanidades

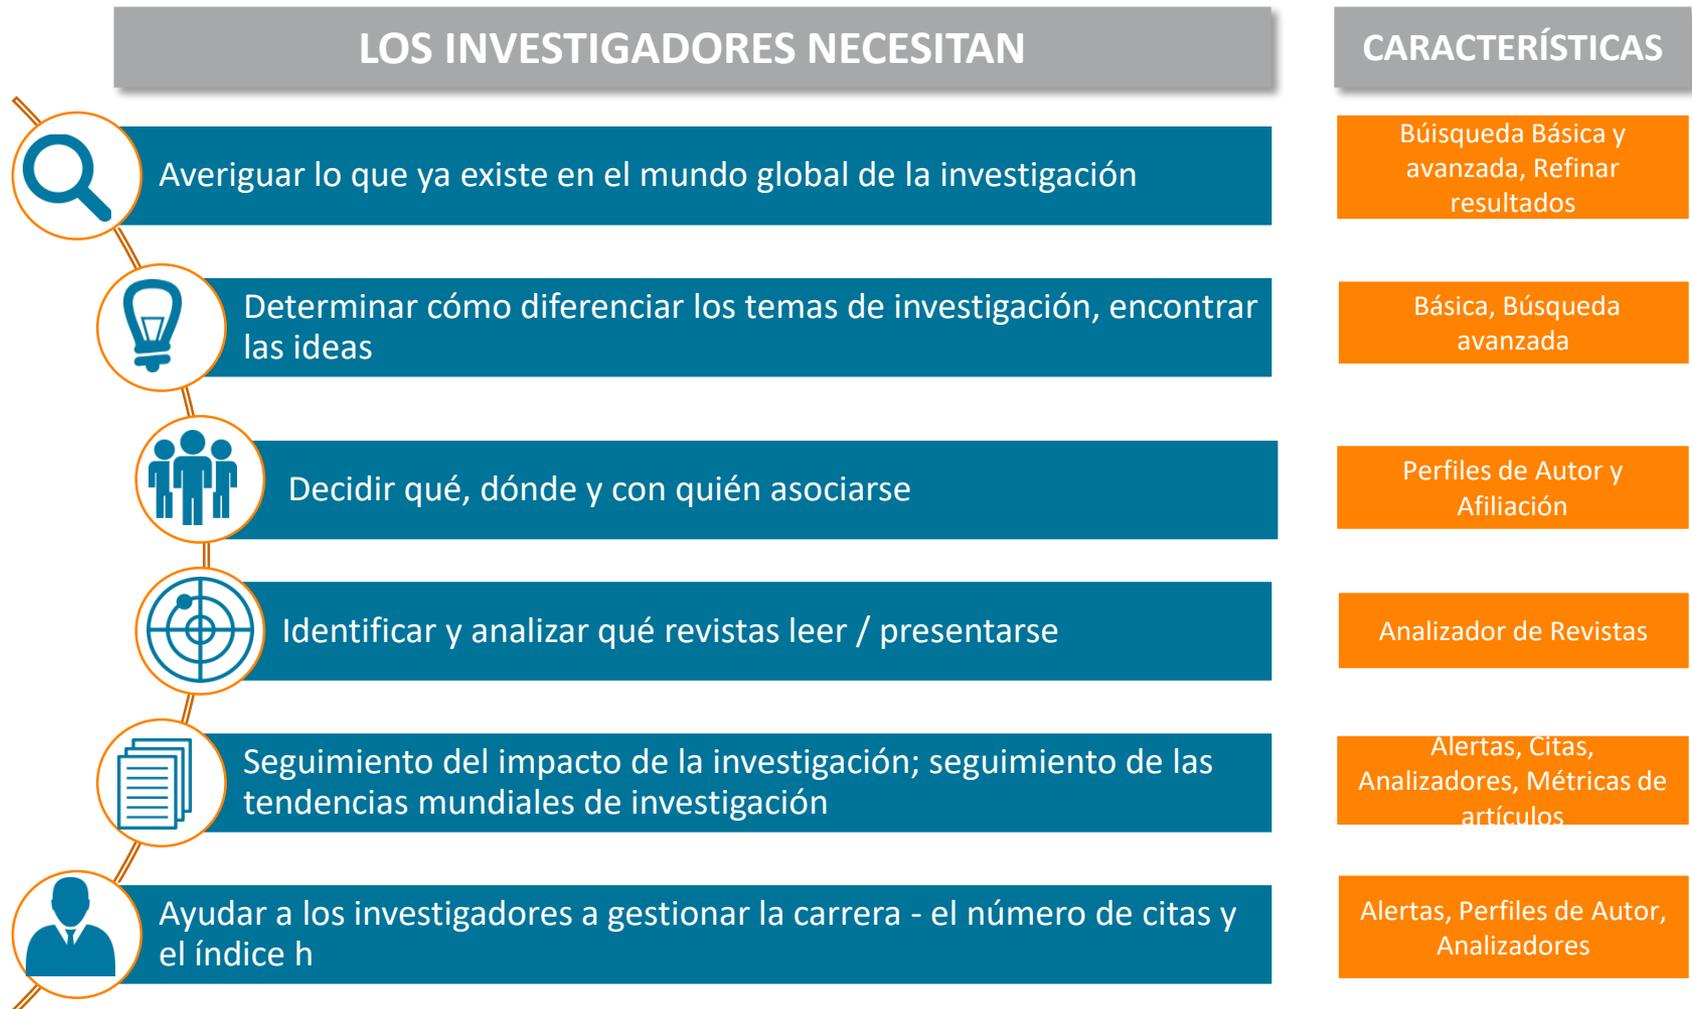

# Cobertura imparcial y completa de las revistas con títulos de muchos editores académicos de renombre

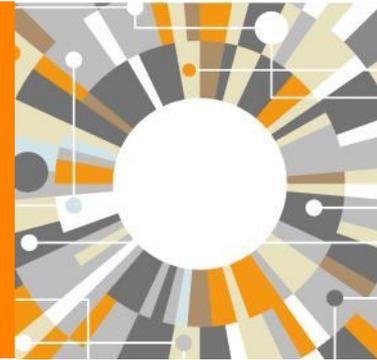

# ¿En qué tareas puede ayudarle Scopus?

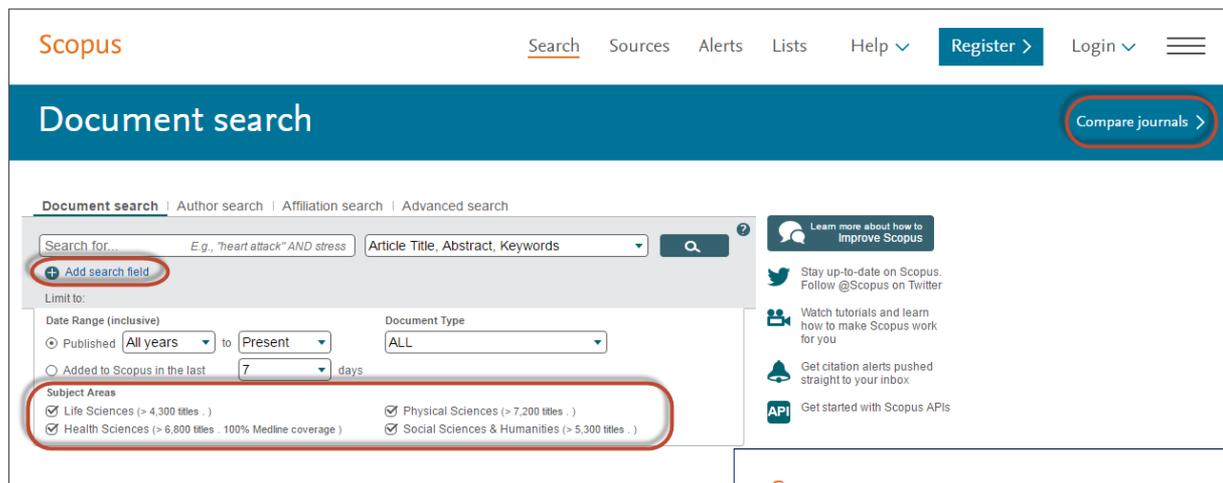

# Scopus ayuda a los investigadores a tener éxito con las necesidades de investigación comunes

# Novedades del 2016

Introducing CiteScore metrics for serials

We are proud to introduce CiteScore metrics from Scopus – comprehensive, current and free metrics for serial titles in Scopus. Search or browse below to find a source and see the new metrics. Use the annual metrics for reporting, and the 2016 metrics for up-to-date tracking. Be sure to use qualitative as well as the below quantitative inputs when presenting your research impact, and always use more than one metric for the quantitative part.

Documents from 3 years: 2011 2012 2013 2014 2015 2016  
 Citations in 2015

# Funcionalidades básicas Scopus

# Funcionalidades Básicas en Scopus

- Registro y creación de un Perfil Personal
- Búsqueda de documentos  
Refinar resultados
  - Exportar, imprimir, correo electrónico, crear bibliografía
  - Visualización de las citas
- Consultar las fuentes (Sources)

# Registro y Creación de un Perfil Personal Log in en Scopus

## Registro y creación de un perfil personal

- Aunque el acceso a Scopus se realiza mediante IP, podremos sacar el mayor provecho y ahorrar un montón de tiempo de investigación creándonos nuestro propio Perfil Personal.
- Su Perfil Personal le permitirá:
  - Guardar búsqueda para las posteriores referencias
  - Crear alertas de búsqueda
  - Crear alertas de cita para los artículos que seleccione
  - Guardar listas de artículos seleccionados
  - Guarde sus propios grupos de nombres de autor
  - Pida correcciones de su Perfil de Autor

# Registro y creación de un perfil personal

## Register

Registration is quick and free. It allows you to personalize the [Elsevier products](#) to which you have access.

[Privacy policy](#)

### Your details

First name:  \*

Family name:  \*

### E-mail and password

Your e-mail address will be your username

E-mail address:  \*

Password:  \* [Password Guidelines](#)

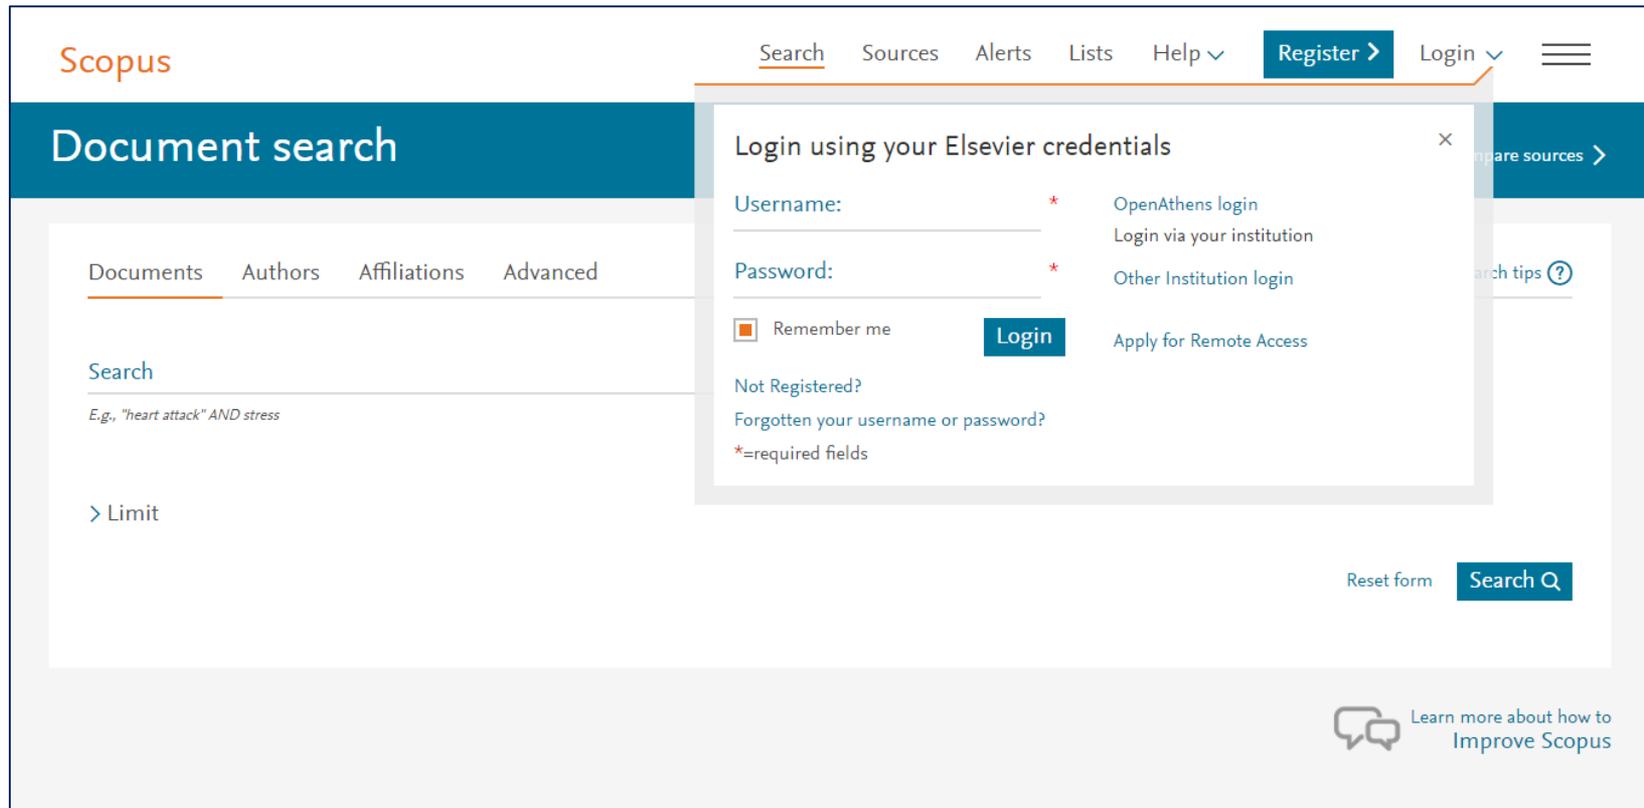

[Add profile details](#)

I wish to receive information from Elsevier B.V. and its affiliates concerning their products and services

\* I have read and understood the [Registered user agreement](#) and agree to be bound by all of its terms.

- Introduzca sus datos con su correo institucional
- Elija una contraseña
- Aceptar el Acuerdo de usuario registrado
- Hacer clic en Register

# Registro y creación de un perfil personal

The screenshot displays the Scopus website interface. The top navigation bar includes links for Search, Sources, Alerts, Lists, Help, Register, and Login. A modal window titled "Login using your Elsevier credentials" is open, featuring input fields for Username and Password, both marked with a red asterisk to indicate they are required. Below these fields are checkboxes for "Remember me" and a "Login" button. To the right of the login fields, there are links for "OpenAthens login", "Login via your institution", "Other Institution login", and "Apply for Remote Access". At the bottom of the modal, there are links for "Not Registered?", "Forgotten your username or password?", and a note "\*=required fields". The background shows the "Document search" section with tabs for Documents, Authors, Affiliations, and Advanced. A search bar contains the text "E.g., 'heart attack' AND stress" and a "Limit" dropdown. A "Search" button is visible at the bottom right of the search area.

Se le enviará un correo electrónico con su nombre de usuario y la confirmación de la contraseña. Introduzca su nuevo nombre de usuario y haga log in.

# Ajustes

The screenshot shows the Scopus interface. At the top, there's a navigation bar with 'Scopus' on the left and 'Search', 'Sources', 'Alerts', 'Lists', and 'Help' on the right. Below this is a 'Document search' header. The main content area has tabs for 'Documents', 'Authors', 'Affiliations', and 'Advanced'. A search bar contains the text 'Article title, Abstract, Keywords' and a search button. A user profile menu is open on the right, showing 'Patricia Zevallos Tori' and several options. The 'Export and reference management settings' option is highlighted with a red box, and a red arrow points from it to a detailed settings window at the bottom right.

Una vez haya hecho log in, podrá acceder a su información personal haciendo clic en las líneas paralelas al lado de su nombre 

**Export and reference management settings**  
 You are signed in to Scopus and your settings will be saved across search sessions.

**Choose a reference manager or file type:**  
 Scopus offers integrated export functionality with Mendeley and Refworks.Or, to use a different reference manager, choose a file format.

## Citation overview: Aplicaciones posibles

- **Solicitud de subvención para los grupos de investigación**
- **Contratación**
- **Evaluación de una universidad, departamento o producción científica de un grupo de investigación**
- **Elección de un tutor para un programa de maestría o doctorado**
- **Puede ser agregado al CV o pagina web del autor**

## Citation Overview: ¿Qué es?

- Cálculos en tiempo real de la información general de las citas:
  - Selección de artículos
  - Selección de artículos o todos los artículos por un autor específico
  - Todos los artículos publicados por una revista específica para un año dado
  - Todos los recuentos de citas y enlaces a artículos se visualizan en la misma pantalla
  - Fácil de imprimir y exportar

### Introducing CiteScore metrics for serials

We are proud to introduce CiteScore metrics from Scopus – comprehensive, current and free metrics for serial titles in Scopus. Search or browse below to find a source and see the new metrics. Use the annual metrics for reporting, and the 2016 metrics for up-to-date tracking.

Be sure to use qualitative as well as the below quantitative inputs when presenting your research impact, and always use more than one metric for the quantitative part.

## ¿Qué es CiteScore?

- CiteScore son métricas completas, actuales y gratuitas para títulos de serie en Scopus.
- Las métricas de CiteScore forman parte de la cesta de métricas de Scopus que incluyen SNIP, SJR, citas, documentos y porcentaje citado. La integración de estas métricas en Scopus proporciona información sobre el impacto de las citas de más de 22.220 títulos.
- Las métricas de CiteScore son una familia de ocho indicadores complementarios enumerados a continuación. Más información sobre los indicadores individuales en el sitio web de [Scopus Journal Metrics](#).

CiteScore	CiteScore Tracker
