# ¿Por qué Publons?

La Web of Science fue pionera con la creación de **ResearcherID** y la atribución de un único identificador para los autores.

2007

La Web of Science apoyó **ORCiD** desde su inicio. El concepto, el código y una parte de la financiación provinieron de ResearcherID.

Science  
Group

Los datos de ResearcherID migraron hacia Publons. Web of Science Group está invirtiendo en Publons para desarrollar una plataforma completa con los perfiles de los investigadores, que además se integrará con las demás soluciones de la Web of Science.

**Publons fue la primera plataforma ofreciendo un servicio gratuito a los investigadores para hacer visible sus trabajos editoriales y de revisión por pares. Publons hace parte del grupo Web of Science desde 2017.**

# ¿Cómo buscar en Publons?

The image shows the Publons website interface. At the top, there is a dark navigation bar with the 'publons' logo on the left and links for 'BROWSE', 'COMMUNITY', and 'FAQ' on the right. A search icon is also present. Below the navigation bar, a light gray bar contains the word 'Researchers'. The main content area has a large heading 'Research' followed by a dashed line. On the left side of the main area, there is a 'HIDE FILTERS' button. Below this are several filter sections: 'Name', 'Institutions', and a checked checkbox for 'Web of Science Core Collection only'. On the right side, there are sections for 'Research fields', 'Countries/Regions' (with 'SPAIN' selected and a close button), and a checked checkbox for 'Highly Cited Researchers'. A purple rectangle highlights the 'BROWSE' menu, which is open and shows a list of options: 'Researchers', 'Journals', 'Publications', 'Institutions', and 'Countries/Regions'.
