## Open Access

Open access status is provided across the Web of Science platform as a result of a partnership with [OurResearch](#), a not-for-profit organization that recently launched a knowledge base of Open Access (OA) content. This knowledge base makes it possible to discover and link to legal Gold or Bronze (free content at a publisher's website) and Green (e.g., author self-archived in a repository) OA versions. This partnership improves discoverability and access to article-level OA versions not only by adding more links to OA content, but also by prioritizing the links to the best version of OA content when multiple versions of an article are available. You can learn more about OA on the [Clarivate website](#).

**My Research Assistant helps you:**

## Search and save

Quickly search and save research from the world's leading journals.

## Create curated feeds

Create a curated feed of research on the topics you care about.

## Get notifications

Get notifications of new articles from trustworthy, vetted sources.

## Easily share

# Saving searches & Creating Feeds

The app introduces saved search feeds. Users can save and name a specific search, which will refresh each time the app is opened and allow the user to keep on top of the latest research. Saved feeds appear on the homepage and users can toggle between multiple feeds by tapping on the feed name at the top of the screen. Feeds can also be edited and adjusted as necessary.

# Searching & view journals from Master Journal List

Users can also search the MJL for journals indexed in Web of Science using title or ISSN, and using the coverage, OA, and JCR filters.

The screenshot displays the Master Journal List search interface. On the left, the 'Create A Journal Search' panel includes a search bar for 'Journal, ISSN, or Title Word', a 'Field Query' input, and filters for 'Web of Science Coverage', 'Open Access', and 'Journal Citation Reports'. A 'CREATE A SEARCH' button is at the bottom. The main 'Journal Search' panel shows results for the query '"nature"'. The first result is 'NATURE' by 'NATURE PUBLISHING GROUP' with ISSN 0028-0836 / 1476-4687. The second result is 'BOURGOGNE NATURE' by 'ASSOC BOURGOGNE-FRANCHE-COMTE NATURE' with ISSN 1777-1226. The third result is 'BULLETIN OF IBARAKI NATURE MUSEUM' by 'IBARAKI NATURE MUSEUM' with ISSN 1343-8921. Each result has a 'VIEW JOURNAL PROFILE' link. On the right, the detailed profile for 'NATURE' is shown, including the 'nature' logo, ISSN, an 'About' section describing it as a weekly international journal, and a 'Publisher Address' in London, England.

# Saving a Reading List & Sharing with colleagues

Users can also save articles and journals to a Reading List for later viewing.

Note that feeds and favorites are not yet available in WoS desktop but is an area for future development.

Easily share articles and journals with your colleagues  
(The recipient doesn't need to have a MyRA or WoS account)
